

Coloni starts new TC3 team

Former GP2 and Formula 3000 team manager Paolo Coloni has formed a new squad to enter next year's new TC3 International Series.

Paolo Coloni Racing will enter a multi-car team in the series, which is expected to feature up to three grand prix support races.

"After my successful experience with formula cars, this is a great opportunity to enter with my own team and compete in a different category," said Coloni.

"To compete with equal-performance cars and sensible budgets worldwide in TC3 on the best tracks is fantastic."
